DESCRIPTION

FIG. 1 is a front view of a first image of a first embodiment of a display screen portion with animated graphical user interface showing my new design;

FIG. 2 is a front view of a second image thereof;

FIG. 3 is a front view of a first image of a second embodiment of a display screen portion with animated graphical user interface showing my new design;

FIG. 4 is a front view of a second image thereof; and,

FIG. 5 is a front view of a third image thereof.

In the first embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 through 2. In the second embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 3 through 5. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken line showing of a portion of a display screen and a computer device in FIGS. 1 through 5 forms no part of the claimed design. The broken line showing of text and portions of the graphical user interface in FIGS. 1 through 5 represents environmental subject matter and forms no part of the claimed design.
